Site Selection

Many ways to select sites Example from Kentucky

- Selection of audience – general (youth vs. adults)
- Assessment of specific audience
  - Data analysis from a variety of sources
  - Survey of CES employees (county professionals, state professionals, administration)
  - Survey of stakeholders
- Selection of program need
  - Same as above
- Selection of sites
  - RFA
  - Review process – professionals UK, KSU, other land grant universities
  - Final approval by administration

Other Ways of Selection

- Preference of administration
- Program Model selected mates with only 2 sites
- Sites selected because of great need, program model selected to match need of sites
