

REReport Project Initiation Data Entry Fields

REReport will pull as much information as possible from the grant proposal submitted to NIFA, reducing the amount of information that the grantee must enter. The following is the final list of data the grantee will need to enter into REReport for project initiation.

- Project Number *
- Collaborating/Partnering Country
- Goals and Objectives *
- Expected Outputs *
- Expected Outcomes *
- Target Audiences
- Methods *
- Non-Technical Summary *
- Animal Health
- Taxonomy (Knowledge Area, Subject of Investigation, Field of Science) *
- Research *
- Extension *
- Education *

* indicates a required field

General agency guidance about what is desired in each field will be developed and made available prior to October. In addition, specific NIFA programs may also provide guidance about what they need in some fields for their programs, which will be provided by the NIFA program contact at time of award.
