## **QUESTIONS FOR FCS LEADERS**

**As you prepare for the FCS Leaders Meeting, please consider the following questions for discussion by Region:**

1. Who are FCS educators today, and what are their assignments?
2. The Cooperative Extension Service will be a century old in 2014. In what ways are you commemorating this important milestone?
3. How has Home Economics/Family and Consumer Sciences advanced society over the years and what is in our future? We will gather 100 advances by HE/FCS to use in commemorating our accomplishments in 2014.
4. What initiative-based or multistate efforts are you undertaking by Region or nationally? How are you capturing impacts?
