Section 7609 of the [Agriculture Improvement Act of 2018](#) (Pub. L. 115-334) added the 1994 Land-grant Institutions (as defined in section 532 of the [Equity in Educational Land-Grant Status Act of 1994 \(7 U.S.C., Section 301 note\)](#) as eligible to compete for and receive CYFAR funding. Section 7403 of the [Food, Conservation, and Energy Act \(FCEA\) of 2008](#) amended section 3(d) of the Smith-Lever Act of 1914 ([7 U.S.C. 343\(d\)](#)) in regard to eligibility. The eligibility to compete for CYFAR funding was broadened to include 1890 Land-grant Colleges and Universities, including Tuskegee University, West Virginia State University, and Central State University. Eligibility was also provided to the University of the District of Columbia per [Section 208 of the District of Columbia Public Postsecondary Education Reorganization Act](#).

Since 2009, NIFA has partnered with the United States military service branches to marshal resources of the Cooperative Extension 4-H programs to develop capacity for supporting and sustaining programs for military-connected youth who are identified as at-risk youth. CYF AR military-connected youth programs have been funded in forty-seven states, the District of Columbia, and 2 territories and reach over 100,000 military-connected youth through 4-H positive youth development experiences in 4-H clubs, camps, and other 4-H opportunities.

### **B. Purpose and Priorities**

The CYFAR 4-H Military Partnership Professional Development and Technical Assistance Program (CMPC-PDTA) has three strategic objectives:

1. To provide professional development and technical assistance to the Land-grant institutions and Cooperative Extension Systems, in collaboration with other organizations, to ensure continued development and implementation of the 4-H program on military installations. The CMPC-PDTA program, collaboratively institutions and Cooperative Extension Systems, in collaboration with other organizations, to ensure continued development and implementation of the 4-H program on military installations. The CMPC-PDTA program, collaboratively through the Extension system will provide the components of professional development and technical assistance in keeping with the CYF AR Guiding Principles: (see [Children, Youth, and Families at Risk Program Guiding Principles](#)).
2. To support the development of Cooperative Extension's educational 4-H positive youth development programs (in local, often rural communities) for military-connected youth based on identified needs and soundly grounded in research.
3. To integrate 4-H Military Partnership programming into ongoing Extension programs for children, youth, and families - ensuring that military-connected youth continue to be a part of Extension 4-H programs and have access to resources and educational opportunities.

In alignment with the overall purpose of the program, the strategic objectives must be accomplished through the following activities:

1. **Professional Development:**  
Through a stakeholder input process, professional development training needs, including mental health, must be identified and based on the stakeholder input, a professional development plan must be created outlining training opportunities delivered through diverse methods and an evaluation plan for training. The overall professional development plan shall be designed to maximize expertise and capacity of Extension faculty, local and regional staff, and at the national level for 4-H military liaisons, military service staff working with land-grant institutions and those involved in working with military-connected youth.
2. **Communication:**  
A plan for communication must be created outlining various strategies to increase meaningful communication across the partnership including the development and dissemination of marketing materials.
3. **Evaluation:**  
An evaluation plan must be created detailing what will be measured, how data will be collected and maintained will be accomplished for partners' programs, and a process for providing training and technical assistance for issues related to evaluation and measuring impacts and an Annual Report and Impact Statements must be completed and published for dissemination.

*Three (3) Year Plan of Work* CMPC-PDTA applicants will describe how the strategic objectives with activities will be implemented over three years. The Plan of Work will be included in the Project Narrative.

The CYFAR 4-H Military Partnership Professional Development and Technical Assistance is aligned with the following: USDA Strategic Plan found at (<https://www.usda.gov/sites/default/files/documents/usda-fy-2022-2026-strategic-plan.pdf>).

Specifically, **Goal 5: Expand Opportunities for Economic Development and Improve Quality of Life in Rural and Tribal Communities.**

Handling of baseline data and data collection will be addressed in the Data Management Plan (DMP) in accordance with the Part IV(B) of this RFA.

For a program informational webinar please visit the [NIFA calendar](#) for dates, event registration, and link.

## PART V. APPLICATION REVIEW REQUIREMENTS

### A. NIFA's Evaluation Process

NIFA evaluates each application in a two-part process. First, we screen each application to ensure that it meets the administrative requirements set forth in this RFA. All administrative requirements must be met in order for the application to proceed to the next level of review. Second, a scientific peer-review process will be used to technically evaluate applications that have met the administrative requirements using a review panel (see [NIFA Peer Review Process](#)).

#### Scientific Peer Review Process:

NIFA selects reviewers for the review panel based upon their training and experience in relevant scientific, extension, or education fields, taking into account the following factors:

1. the level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities.
2. the need to include experts from various areas of specialization within relevant scientific, education, or extension fields.
3. the need to include other experts (e.g., producers, range or forest managers/operators, researchers,
4. public health practitioners, educators, consumers, and commercial reviews) who can assess relevance of the applications to targeted audiences and to program needs.
5. the need to include experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, and private profit and non-profit organizations) and geographic locations.
6. the need to maintain a balanced composition with regard to minority and female representation and an equitable age distribution; and
7. the need to include reviewers who can judge the effective usefulness of each application to producers and the general public.

After each peer review panel has completed its deliberations, the responsible program staff of NIFA will recommend that your project is either approved for support from currently available funds or declined due to insufficient funds or unfavorable review.

NIFA reserves the right to negotiate with the PD/PI and/or the submitting organization or institution regarding project revisions (e.g., reductions in the scope of work, funding level, period, or method of support) prior to recommending any project for funding.

After the review process has been completed, NIFA sends copies of reviews, *not* including the identity of reviewers, and a summary (if applicable) of the review panel comments to the PD.

**Conflicts of interest.** NIFA takes extreme care to prevent any actual or perceived conflicts of interest that may influence the review or evaluation (see [NIFA Peer Review Process for Competitive Grant Applications](#)).

## **B. Evaluation Criteria**

NIFA will use the following criteria to evaluate this RFA:

### **1. Potential for successfully supporting the implementation and capacity of the 4-H Military Partnership and Outreach Support Program**

This criterion is used to assess the likelihood that the project team will succeed in: (1) providing the overall management of this project including partnerships and management of project staff; and (2) completing the activities and products described in Part I-Funding Opportunity Description, Section B., based on statement of need and background as well as experience with positive youth development, issues and challenges among military youth, implementing youth programs, relevant research and evaluation, capacity building through relevant professional development as well as experience working with military Services. Factors include those identified in the project narrative.

### **2. Proposed Approach**

This criterion is used to assess the soundness and sustainability of the proposed Plan of Work to successfully support the implementation and capacity of the 4-H Military Partnership and Outreach Support Program including objectives and activities and project management. Factors include those identified in the project narrative.

### **3. Budget and Budget Narrative**

This criterion is used to assess the extent to which the total 3-year budget adequately supports the project and is cost effective based on budget outline provided. Elements considered include: the necessity and reasonableness of costs to carry out project activities and achieve project objectives and the adequacy of time committed to the project by key project personnel. Factors include those identified in the project narrative.

A reviewer's written evaluation entails two levels of assessment. First, the reviewer summarizes how well the application addressed each evaluation criterion. After the application has been assessed for strengths and weaknesses of each criterion, the reviewer then evaluates the overall likelihood that the project will have significant outcome and impact. These written reviews are used to begin panel discussions with other reviewers serving on the peer review panel. Through these discussions, peer review panelists come to consensus on the final rating and ranking of proposals. A complete description of NIFA's peer review process can be found at the NIFA website: [NIFA Peer Review Process for Competitive Grant Applications](#). Evaluation criteria that will be used in reviewing applications submitted in response to this RFA will encompass all areas of the project summary and narrative as outlined and described in Part IV, B. (R&R Other Project Information Form), Fields 7-12. As such, proposals will be evaluated on whether or not they include information requested in this RFA; the quality of information provided; and the feasibility of project's successful completion given proposed objectives, associated activities, time, and partner(s)' commitments.

## **C. Centers of Excellence**

In addition to evaluating applicants using the criterion listed in [Part V § B](#) of this RFA, NIFA will use the COE standards described in this RFA to evaluate applicants that rank highly meritorious and requested to be considered as a COE. In instances where applicants are found to be equally meritorious with the application of a non-COE applicant, NIFA will prioritize the COE applicant meeting the COE criteria. NIFA will effectively use the COE prioritization as a

“tie breaker.” Applicants that rank highly meritorious but who did not request consideration as a COE or who are not deemed to have met the COE standards may still receive funding.

Applicants that meet the COE requirements will have the COE designation in their notice of award. Entities recognized as COE will maintain that distinction for the duration of their period of performance or as identified in the terms and conditions of that award.

**D. Organizational Management Information**

Applicants must submit specific management information relating to an applicant prior to an award and update the information as needed. Applicants may only have to update their information if they had previously provided the information under this or another NIFA program. NIFA provides the requisite forms during the pre-award process. Although an applicant may be eligible for award under this program, there are factors that may exclude an applicant from receiving federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual, or a determination that an applicant is not responsible).

**E. Application Disposition**

Applicants may withdraw at any time before NIFA makes a final funding decision. NIFA will retain all applications, including withdrawn applications and unfunded applications.

## **PART VI. AWARD ADMINISTRATION**

### **A. General**

Within the limit of funds authorized, the NIFA awarding official will make grants to responsible and eligible applicants whose applications are judged most meritorious under the procedures set forth in this RFA. The date specified by the NIFA awarding official as the effective date of the grant must be no later than September 30 of the federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. The project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by NIFA under this RFA may be used only for the purpose for which they are granted in accordance with the approved application and budget, regulations, terms and conditions of the award, applicable federal cost principles, USDA assistance regulations, and [NIFA General Awards Administration Provisions, 7 CFR Part 3430, subparts A through E](#).

*Award Notice.* The award document will provide pertinent instructions and information as described in [2 CFR 200.211](#) (see [NIFA's Terms and Conditions](#)).

### **B. Administrative and National Policy Requirements**

Several federal statutes and regulations apply to grant applications and the projects outlined in this RFA (some are listed here: [Federal Regulations](#)). Unless specifically noted by statute or award-specific requirements, [NIFA Policy Guide](#) applies to all NIFA awards.

### **C. Expected Program Outputs and Reporting Requirements**

1. CMPC-PDTA reporting requirements include the following: all web posted reports will be Section 508 Compliant. All reports published on the Internet must comply with Section 508 of the United States Workforce Rehabilitation Act of 1973.
2. Annual Report
3. Impact Statements

## **PART VII. OTHER INFORMATION**

### **A. Use of Funds and Changes in Budget**

***Delegation of fiscal responsibility.*** Unless the terms and conditions of the award state otherwise, awardees may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of award funds.

***Changes in Budget or Project Plans.*** In accordance with [2 CFR 200.308](#), awardees must request prior approval from NIFA for the following program or budget-related reasons (the awardee is subject to the terms and conditions identified in the award):

1. Change in the scope or the objective of the project or program without prior written approval (even if there is no associated budget revision requiring).
2. Change in a key person specified in the application or the federal award.
3. Disengagement from the project for more than three months, or a 25 percent reduction in time devoted to the project.
4. Inclusion of costs that require prior approval in accordance with [2 CFR 200 Subpart E \(Cost Principles\)](#), or [45 CFR Part 75 Appendix IX, \(Principles for Determining Costs Applicable to Research and Development under Awards and Contracts with Hospitals\)](#), or [48 CFR](#), unless waived by the federal awarding agency, [48 CFR Part 31, Contract Cost Principles and Procedures](#);
5. Transfer of funds budgeted for participant support costs to other categories of expense ([2 CFR 200.456 Participant support costs](#));
6. Sub-awarding, transferring or contracting out of any work under a federal award, including fixed amount sub-awards (see [2 CFR 200.333, Fixed Amount Sub-awards](#)), unless described in the application and funded in the approved federal awards. This provision does not apply to the acquisition of supplies, material, equipment, or general support services.
7. Changes in the approved cost-sharing or matching provided by the non-federal entity; and
8. The need for additional federal funds to complete the project.

### **B. Confidential Aspects of Applications and Awards**

When an application results in an award, it becomes a part of NIFA transaction records, which are available to the public. Information that the Secretary of Agriculture determines to be confidential, privileged, or proprietary in nature will be held in confidence to the extent permitted by law. Therefore, applicants should clearly mark any information within the application they wish to have considered as confidential, privileged, or proprietary. NIFA will retain a copy of an application that does not result in an award for three years. Such an application will be released only with the consent of the applicant or to the extent required by law. An applicant may withdraw at any time prior to the final action thereon.

### **C. Regulatory Information**

This program is not subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. Under the provisions of the Paperwork Reduction Act of 1995 ([44 U.S.C. Chapter 35](#)), the collection of information requirements contained in this notice have been approved under [OMB Document No. 0524-0039](#).
