Executive Summary

NIFA requests applications for the Renewable Resources Extension Act (RREA) Program for fiscal year (FY) 2024 to assist all states in carrying out a program of extension activities designed to: (1) provide educational programs enabling individuals to recognize, analyze, and resolve problems dealing with renewable resources, including forest- and range-based outdoor recreation opportunities, trees, and forests in urban areas, and trees and shrubs in shelterbelts; (2) use educational programs to disseminate the results of research on renewable resources; (3) conduct educational programs that transfer the best available technology to those involved in the management and protection of forests and rangelands and the processing and use of their associated renewable resources; (4) develop and implement educational programs that give special attention to the educational needs of small, private non-industrial forest landowners; (5) develop and implement educational programs in range and fish and wildlife management; (6) assist in providing continuing education programs for professionally trained individuals in fish and wildlife, forest, range, watershed management and related fields; (7) help forest and range landowners in securing technical and financial assistance to bring appropriate expertise to bear on their problems; and (8) help identify areas of needed research regarding renewable resources.

This RFA is being released prior to the enactment of a FY 2024 Appropriations Act. Subject to any FY 2024 Continuing Resolution, NIFA will distribute funds to institutions according to the amounts allocated in FY 2023. NIFA will adjust the allocations for FY 2024 once appropriations are finalized. The amount available for support of this program in FY 2023 was \$3,597,600.

[Appendix A](#) of this RFA includes specific FY 2023 distributions. NIFA will issue FY 2024 payments subject to the availability of funds and the applicant having met the previous year's reporting requirements. [Part III, B](#) of this RFA identifies if matching is a requirement and, if so, applicants should pay particular attention to the matching instructions included in [Part IV, B, 6](#) of this RFA.

This notice identifies the objectives for RREA projects/programs, the eligibility criteria for projects/programs and applicants, and the application forms and associated instructions.

PART I – FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

The Renewable Resources Extension Act ([16 U.S.C. 1671-1676](#)) established the Renewable Resources Extension Act Program. This law provides the basis for federal funding for extension activities associated with trees, fish, wildlife, and water resources on private forest and rangelands and for renewable resource education programs at State Land-grant Institutions established under the Morrill Act of July 2, 1862, as amended; the Hatch Act of March 2, 1887, as amended; the Morrill Act of August 30, 1890, as amended, including Tuskegee University; and other State-supported colleges and universities offering graduate training in the sciences basic to forestry and having a forestry school.

States are eligible for funds appropriated under this Act according to the respective capabilities of their private forests and rangelands for yielding renewable resources and relative needs for such resources identified in the periodic Renewable Resource Assessment provided for in Section 3 of the Forest and Rangeland Renewable Resources Planning Act of 1974 and the periodic appraisal of land and water resources provided for in Section 5 of the Soil and Water Resources Conservation Act of 1977.

B. Purpose

The purpose of this funding is to assist states in carrying out an extension program designed to assist forest and range landowners and managers in making resource management decisions based on research findings. Forest and rangeland resources include vegetation, water, fisheries and wildlife, soil, and recreation. Projects must address the RREA strategic issues identified in the 2018-2022 RREA Strategic Plan, which has been extended through FY 2024.

RREA is aligned with the following:

USDA Strategic Plan FY 2022-2026 can be found at
(<https://www.usda.gov/sites/default/files/documents/usda-fy-2022-2026-strategic-plan.pdf>)

Strategic Goal 1: Combat Climate Change to Support America’s Working Lands, Natural Resources and Communities

Strategic Goal 2: Ensure America’s Agricultural System is Equitable, Resilient, and Prosperous

Strategic Goal 3: Foster an Equitable and Competitive Marketplace for All Agricultural Producers

Strategic Goal 5: Expand Opportunities for Economic Development and Improve Quality of Life in Rural and Tribal Communities

D. Funding Restrictions

1. Approved NIFA RREA Projects

RREA federal funding must be used on the strategic issues included in the FY 2018-2022 RREA Strategic Plan and identified in the institution’s approved 3-Year Plan of Work for FY 2018-2022. The FY 2018-2022 RREA Strategic Plan is extended through FY 2024 and can be found on the [USDA NIFA home page for RREA](#).

2. Indirect Costs and Tuition Remission

In accordance with section 1473 of NARETPA ([7 U.S.C. 3319](#)), indirect costs and tuition remission are unallowable as RREA formula grant expenditures. Further, costs that are part of an institution's indirect cost pool (e.g., administrative or clerical salaries) may not be reclassified as direct costs for the purpose of making them allowable.

3. Carryover of Funds

RREA funds are expected to be fully expended in the fiscal year of appropriation; however current policy allows 50 percent of the allocation from the fiscal year of appropriation to be carried over into the next fiscal year. These carryover funds must be fully expended by September 30 of the carryover year (e.g., September 30, 2025, for FY 2024 funds). However, waiver requests may be considered and approved. Requests should be submitted to the national program leaders listed in [Part VII](#) of this RFA, who will provide the required format for requesting a greater than 50 percent carryover of funds.

E. Other Submission Requirements

Unique Entity Identifier (UEI) and System for Award Management (SAM) – each applicant (unless excepted under [2 CFR 25.110\(b\) or \(c\)](#), or has an exception approved by the federal awarding agency under [2 CFR 25.110\(d\)](#)) is required to:

1. be registered in SAM before submitting an application;
2. provide a valid UEI number in its application; and
3. continue to always maintain an active SAM registration with current information at all times during which the applicant has an active federal award, an application, or plan under consideration by a federal awarding agency.

If you have not complied with all applicable UEI and SAM requirements, you may be considered ineligible to receive an award.

Your SAM registration information determines your organization ID in the [ezFedGrants](#) system, and the information must match your ASAP recipient UEI and EIN.

PART V—APPLICATION REVIEW REQUIREMENT

A. General

NIFA will review submitted documents to determine if all program, financial, and administrative requirements are met and are current. Missing or incomplete information within an application may require additional submittals and deletion of application(s) already submitted.

B. Organizational Management Information

Specific applicant organizational management information shall be submitted on a one-time basis, with updates submitted as needed. If this information has not been submitted under this or another NIFA program, it is the responsibility of the organization to do so for determination of eligibility prior to the award of a grant identified under this RFA.

NIFA will provide the forms to fulfill these requirements as part of the Pre-Award process. Although an applicant may be eligible, there are factors that may exclude an applicant from receiving federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination an applicant is not responsible based on submitted or discovered organizational management information).

PART VI—AWARD ADMINISTRATION

A. General

Within the limit of funds available for such purpose, the NIFA awarding official shall make grants to eligible applicants.

B. Award Notice

The notice of federal award is the authorizing document. The award document will provide pertinent instructions and information as described in [2 CFR 200.211](#) (see [NIFA's Terms and Conditions](#)). Awardees should ensure a copy of the Notice of Award, as well as all future amendments, are retained within their institutional systems.

C. Administrative and National Policy Requirements

Several federal statutes and regulations apply to grant applications considered for review and to project grants awarded under this program. These may include, but are not limited to, those listed at [USDA/NIFA Federal Regulations](#). Unless specifically noted by statute or award-specific requirements, [NIFA Federal Assistance Policy Guide](#) applies to all NIFA awards.

D. Expected Program Outputs and Reporting Requirements

Institutions receiving RREA funding from NIFA are required to submit the following reports:

1. Program/Project Initiation in the NIFA Reporting System (NRS);
2. Program/Project progress reports;
3. Project Financial Report; and
4. Federal Financial Report (SF-425)

Program/Project Initiations and Progress Reports are to be completed by any institution who has been granted authority to use capacity dollars. NIFA is building an integrated reporting portal for research and extension grants. Information regarding requirements for submittals of reporting through the NRS are available at the NRS web page <https://nifa.usda.gov/tool/pow-nifa-reporting-system>.

A Project Financial Report must be submitted to NIFA annually for all eligible projects from the preceding fiscal year. A Project Financial Report is also required for expenditures on all state projects to be included in the non-federal funds and matching funds computation. Reports shall be made on the federal fiscal year basis.

Federal Financial reporting via the SF-425 is due within the ezFedGrants portal, at minimum on an annual basis. Please see your Notice of Award for information on additional SF-425's that may be required throughout the life of the award. Information on how to access the ezFedGrants portal can be found on the [ezFedGrants \(eFG\) Grants and Agreements System Overview](#) page. See [RREAF](#) for additional details of reporting requirements.

See [Renewable Resources Extension Act Capacity Grant](#) for additional details of reporting requirement details.
