Meeting Logistics

- This webinar will be recorded. Please be sure your microphone is muted.
- **Zoom Tech Support** = 1-888-799-0125, Option 2
- Throughout the presentation, you may type questions in the chat box or you may use the Q&A feature.
- Slides and the recording from this conference will be posted to <https://www.nifa.usda.gov/grants/programs/specialty-crop-research-initiative-scri>

Non-Discrimination Statement

<https://www.usda.gov/non-discrimination-statement>

- In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs, are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.
- Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.
- To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax (202) 690-7442; or (3) email: program.intake@usda.gov.
- USDA is an equal opportunity provider, employer and lender.

Topics We Will Cover

- NIFA Overview
- Program Overview
- Request for Pre-Application (RFPA) Details
- Proposal Evaluation Process
- Additional Information/Resources

National Institute of Food and Agriculture
U.S. DEPARTMENT OF AGRICULTURE

NIFA Overview

NIFA Overview

- **National Institute of Food and Agriculture (NIFA)** is the extramural science-funding agency within USDA's Research, Education and Economics mission area.
- NIFA is the **federal partner** in the land-grant university system.
- NIFA **invests in and supports** initiatives that ensure the long-term viability of agriculture.
- NIFA provides **funding and strategic leadership** for programs that ensure groundbreaking discoveries in agriculture-related sciences and technologies reach the people who can put them into practice.

Topics Covered by NIFA Programs

Advanced Technologies

Bioenergy; Biotechnology;
Nanotechnology

Animals

Animal Breeding; Animal Health;
Animal Production; Aquaculture

Business and Economy

Markets and Trade; Natural Resource
Economics; Small Business

Natural Resources

Forests; Grassland and Rangeland; Soil,
Water, and Air

JS

Education

Minority Serving Institutions; Teaching
and Learning; Workforce Development

Environment

Climate Change; Ecosystems; Invasive
Pests and Diseases

Farming and Ranching

Agriculture Safety & Technology; Farmer
Education; Organic & Family Farms

Human Sciences

Community Vitality; Family Well-Being;
Youth

Food Science

Food Quality; Food Safety

Food and Nutrition Security

Nutrition; Obesity; Wellness

International

Global Engagement; Global
Food Security

Plants

Crop Production; Pest
Management; Plant
Breeding; Plant Health

National Institute of Food and Agriculture
U.S. DEPARTMENT OF AGRICULTURE

Program Overview

Purpose and Priorities

RFPA Page 7-8

1. Research in plant breeding, genetics, genomics, and other methods to improve crop characteristics. Projects that seek to create improved cultivars through the use of biotechnology must demonstrate an understanding of the regulatory requirements involved in their release and must also present a plan for addressing the regulatory issues;
2. Efforts to identify and address threats from pests and diseases, including threats to specialty crop pollinators;
3. Efforts to improve production efficiency, handling and processing, productivity, and profitability over the long term (including specialty crop policy and marketing);
4. New innovations and technology, including improved mechanization and technologies that delay or inhibit ripening;
5. Methods to prevent, detect, monitor, control, and respond to potential food safety hazards in the production efficiency, handling and processing of specialty crops, including fresh produce.

What is a specialty crop?

RFPA Appendix III
P 22

- Fruits and vegetables, tree nuts, dried fruit, Horticulture and nursery crops, including floriculture.
- USDA has developed a more detailed description of specialty crops that is used by all USDA agencies.
- https://www.nifa.usda.gov/sites/default/files/resources/definition_of_specialty_crops.pdf

Eligibility

RFPA Page 13

- Federal agencies
- national laboratories
- colleges and universities
- research institutions and organizations
- private organizations or corporations
- State Agricultural Experiment Stations
- individuals
- groups consisting of two or more of these entities

TB

Project and Grant Types

Project Types

Planning

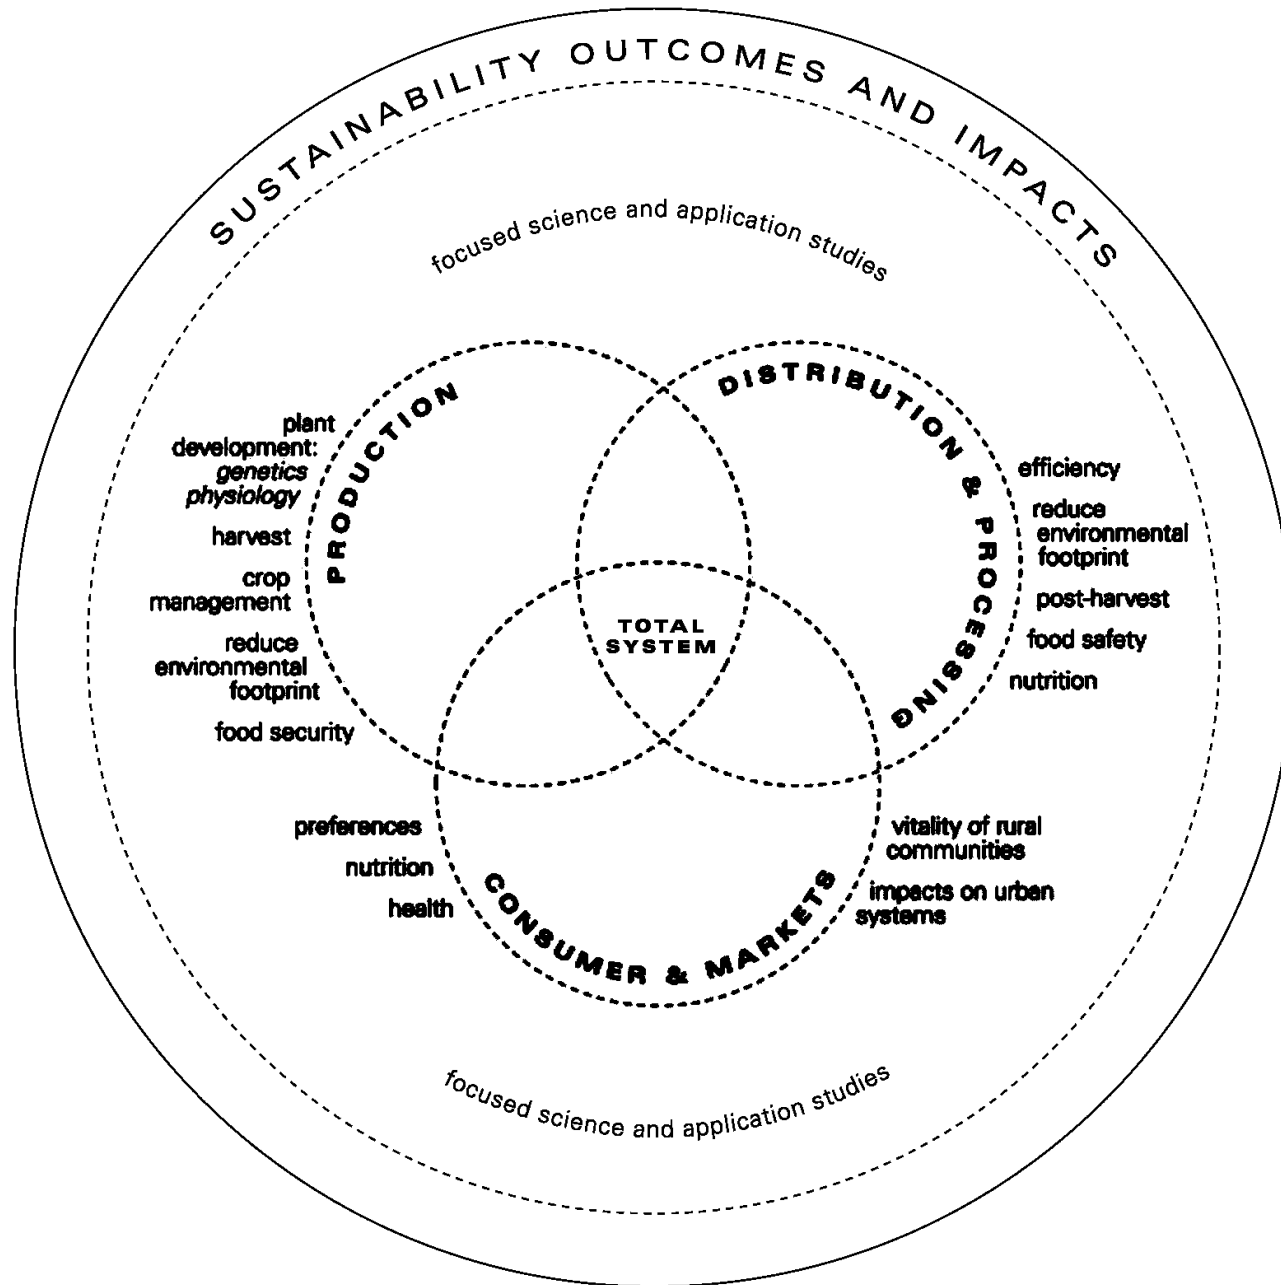

Standard Research
and Extension

Coordinated
Agriculture Projects

Application

New

Resubmission

TB

Standard Research and Extension Project

1. Standard Research and Extension Projects (SREPs)
 - a. Project Period – Up to five years.
 - b. Budget – Normally, Federal funds will not exceed \$1,000,000 per year. Requests less than \$250,000 per project are discouraged.
 - c. Purpose – To support targeted problem-solving efforts that would not qualify in scope for support as a Coordinated Agricultural Project (CAP).
 - d. Statistical Analysis of previous funding (FY 2008-2022). It is anticipated that the total multi-year funding for most funded SREP awards for FY2023 will be close to the historical median:
 - i. Mean award: \$2,461,152
 - ii. Median award: \$2,032,727
 - iii. Minimum award: \$226,905
 - iv. Maximum award: \$6,242,957

Standard Research and Extension Project

RFPA Page 10

- Pre-applications must bring together both research and extension components of the agricultural knowledge system around a problem area or activity. For each SREP project, there is an expectation that an advisory panel will be formed to inform the project throughout its life, including the identification and prioritization of research and extension objectives. SREPs represent the “focused science and application studies” portion of the figure.

TB

Coordinated Agricultural Project

RFPA Page 10-
11

Coordinated Agricultural Projects (CAPs)

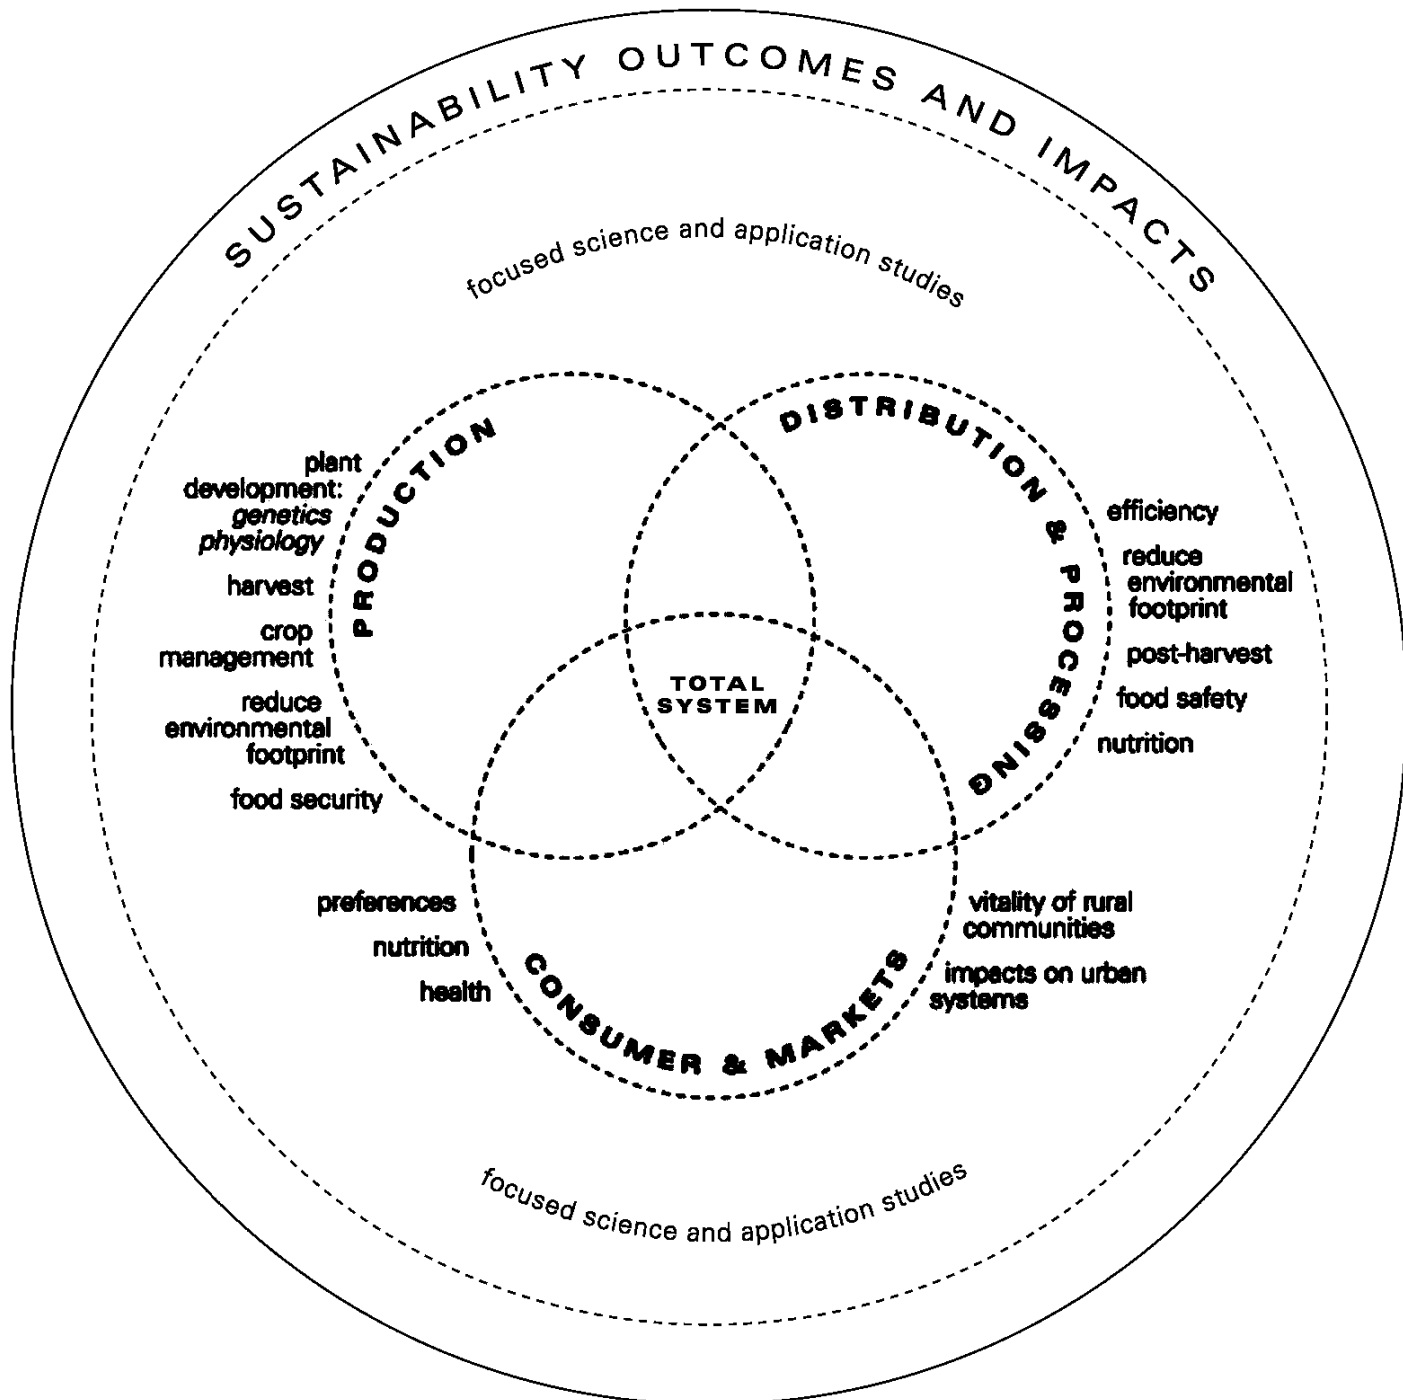

- a. Project Period – Up to five years.
- b. Budget – Normally, Federal funds will not exceed \$2,000,000 per year.
- c. Purpose – To address specific multiple components of a primary system or multiple components of areas where primary systems overlap (see Figure 1).
- d. Statistical analysis of previous funding (FY 2008-2022). It is anticipated that the total multi-year funding for most funded CAP awards for FY 2023 will be close to the historical median.
 - i. Mean award: \$5,815,695
 - ii. Median award: \$5,778,830
 - iii. Minimum award: \$1,912,178
 - iv. Maximum award: \$10,898,772

TB

Coordinated Agricultural Project

RFPA Page 10-
11

- CAPs will be awarded to consortia or groups of qualified applicants to address multiple components of a primary system, an entire primary system or problems that cut across primary systems, with the expectation that the project will make significant contributions to the sustainability of the system or system component. CAP applications are expected to demonstrate coherent and complementary integrated activities with the goal of developing a strategy or solution that could be implemented for specialty crops.

TB

Research and Extension Planning Project

RFPA Page 11 -
12

Research and Extension Planning Projects

- a. Project period – One year.
- b. Budget – Federal funds up to \$50,000 per project.
- c. Research and Extension Planning Projects are intended to support two types of activities, either to:
 1. provide assistance to applicants in the development of quality future SREP or CAP proposals (grant planning) or
 2. provide assistance to consumer, producer, or industry groups for developing strategic research and extension plans—including goals, objectives, priorities, etc. (strategic planning). The expectation is that developed plans could provide the relevance bases for future SCRI grant applications.

Matching

- SCRI first authorized in 2008 Farm Bill – included requirement that federal funds be matched 1:1 with non-federal funds.
- Matching requirement reinstated in 2018 Farm Bill
- However, for fiscal years 2019 through 2022, NIFA has waived the matching requirement when provided the authority by Congress through language in the appropriations bill.
- NIFA is currently operating under a Continuing Resolution (CR) until Dec 12, 2023, which means we currently have same authorities as 2022.

Matching

- NO MATCHING... but stay tuned
- Congress could decide to pass a year-long CR, which would mean that NIFA would be authorized to waive the matching requirement.
- If Congress passes a new appropriations bill, the authorization to waive the matching requirement would have to be included.
- If such an authorization is not included, 1:1 matching would be required.
- NIFA Budget Office will notify Program within days of enactment and we will pass that information on to applicants.

National Institute of Food and Agriculture
U.S. DEPARTMENT OF AGRICULTURE

Pre-Application Details and Documents

Recent Pre-Application Changes

- **FOR ALL Project Types**, applicants are now required to identify up to 3 key words to help program staff ensure that pre-applications are reviewed by an appropriate panel of industry representatives.
 - Key words can be found in Appendix IV on p 24 of RFPA
- **FOR SREPs and CAPs ONLY**
 - Length of Stakeholder Relevance Statement has been reduced to 6 pages
 - Logic Model chart should be put in Appendix A
 - Industry and Stakeholder support letters should be combined in a single PDF and put into Appendix B
 - Use the naming conventions found on p 16 of RFPA
 - Definition of transdisciplinary approaches

Special Considerations for Pre-App

- Planning Projects are not required to have a Logic Model chart
 - Use of an appendix for letters of support will be allowed – follow naming convention in RFPA
- When combining support letters into a single PDF, it is helpful to reviewers to include a list of who provided letters of support.
- Response to previous relevance review is **NOT** required.

Special Considerations for Pre-App

- Citations, cover letters, detailed budgets and budget narratives are **NOT** required.
- List a maximum of 6 key co-investigators
 - Helps manage the time commitment of industry reviewers,
 - Additional team members can be listed in the full application (no team size limits in the full application).

Pre-Application Details

- RFPA is available online at [Specialty Crop Research Initiative | National Institute of Food and Agriculture \(usda.gov\)](https://www.usda.gov/scri)
- **Application Deadline:** 5 p.m. (Eastern Time) December 8, 2023
 - Submitted through Grants.gov
- Total funding available in FY 2024: ~\$76 million
- Assistance Listing Number: 10.309
- FON: USDA-NIFA-SCRI-010311
- Program Code: SCRI

Application Submission

RFPA Page 14 -
15

- NIFA only accepts **electronic** submission of applications.
- NIFA Grants Application Guide available:
nifa.usda.gov/resource/nifa-grantsgov-application-guide
- Application documents **must be in Portable Document Format (PDF)** to be accepted by NIFA.
 - Grants.gov may allow other formats, but NIFA does ***not***
 - Do not use third-party PDF builders
 - Do not password protect

U.S. DEPARTMENT OF AGRICULTURE

Proposal Evaluation Process

Evaluation Process

RFPA Page 18

Evaluation Criteria

Criteria for Industry Relevance Review for SREP and CAP Projects

1. Stakeholder support letters clearly demonstrate that project goals and objectives arose from challenges identified by stakeholders and goal and objective development had significant input from industry. (25%)
2. Information developed by the project team will be delivered to stakeholders in ways that allow them to implement new and/or improved practices. (20%)
3. The described research and extension approach is likely to result in successful project completion. (20%)
4. Clear plans are in place for stakeholders to be engaged in project activities throughout the life of the project. (15%)
5. Stakeholders will be involved in establishing evaluation criteria and/or providing feedback on project success. (10%)
6. Engagement with stakeholders is likely to last beyond the length of the project. (5%)
7. Project team has at least some members who have worked with target stakeholders in the past and some who have experience with the described research and Extension approach. (5%)

Evaluation Criteria

RFA Page 18

Criteria for Industry Relevance Review for Planning Projects

1. The problem being addressed is significant at a national or regional level. (25%)
2. The project will result in a partnership between a specialty crop sector and a scientific community. (25%)
3. The project fully integrates research and extension. (20%)
4. The project will result in a systems approach to insuring the sustainability of the targeted specialty crop sector. (15%)
5. The project team represents a trans-disciplinary approach to problem solving by bringing together biological and physical scientists with economists and social scientists. (15%)

Timeline of SCRI Pre-application Process

Oct - Dec

- Request for Pre-Application (RFPA) release
- Proposal writing and planning
- **Applications due**

Jan- Feb

- Pre-Applications under industry relevance review

Mar

- Applicants are notified whether they are invited to submit a full application or not

The due date for full applications will likely be mid-Apr for those who are invited.

Further guidance will be provided for full applications following invitations.

National Institute of Food and Agriculture
U.S. DEPARTMENT OF AGRICULTURE

Additional Information

Use CRIS to Find Funded Awards

- [Link to list of SCRI funded project abstracts](#)

The screenshot shows the home page of the Current Research Information System (CRIS) website. At the top left is the USDA logo and the text "United States Department of Agriculture National Institute of Food and Agriculture". A navigation bar contains links for "Home", "About CRIS", "Search Menu", "Reports", "Help", and "Contact Us". Below the navigation bar, the page is divided into three main sections. On the left is a "Search CRIS" menu with options for "Assisted Search", "Professional Search", and "Search Pending Projects", followed by an "Other Functions" menu with "NIFA Admin Functions" and "Manual of Classification". The central section features the heading "Current Research Information System" with a "More" link, followed by a welcome message: "Welcome to the Current Research Information System (CRIS) web site. The Current Research Information System (CRIS) provides documentation and reporting for ongoing agricultural, food science, human nutrition, and forestry research, education and extension activities for the United States Department of Agriculture; with a focus on the National Institute of Food and Agriculture (NIFA) grant programs. Projects are conducted or sponsored by USDA research agencies, state agricultural experiment stations, land-grant universities, other cooperating state institutions, and participants in NIFA-administered grant programs, including Small Business Innovation Research and Agriculture and Food Research Initiative. The Planning, Accountability, & Reporting Staff office of NIFA is responsible for maintaining CRIS." Below this is a navigation instruction: "Use the top 'navbar' to navigate through the CRIS web site, or click on the links in the left and right columns to search the CRIS database, to view the Manual of Classification, or to enter our Forms Assistance web site." On the right is a "What's New in CRIS ?" section listing several topics: "Avian Influenza", "Biofuels/Bioenergy", "Food Safety (Ala-Mic)", "Food Safety (Min-Wyo)", "Mad Cow/TSE/Rltd", "Nanotechnology", "Obesity/Weight Control", "Soybean Rust", and "Tribal Education".

MO

* Data Gateway is also an option

Use Data Gateway to Find Funded Awards

[Link to NIFA Data Gateway page](#)

The screenshot displays the 'Project Details Search' interface. At the top, there are four tabs: 'Project Details' (selected), 'Financial Details', 'Advanced Search', and 'Annual Reports on Planned Programs'. Below the tabs is a search input field labeled 'Search these terms...'. Underneath is a section for 'Search in these fields...' and 'Show these fields in the results...'. A 'View results as:' section has radio buttons for 'Document' and 'Tabular (* always hidden in tabular view)'. The 'Expected Results' section shows '98,201 Projects' with 'Search' and 'Reset' buttons. A 'Filters' section on the left includes 'Sponsoring Agency' with three checkboxes: 'Agricultural Research Service/USDA (22,654)', 'Cooperating Schools of Veterinary Medicine (1,250)', and 'Economic Research Service/USDA (396)'. On the right, a table header for '98,201 Projects Found' is visible, with columns for 'Project Title', 'Accession Number', 'Sponsoring Agency', 'Funding Mechanism', 'Award Number', and 'Initial Award Fiscal'.
