CATALOG OF FEDERAL DOMESTIC ASSISTANCE: This program is listed in the Catalog of Federal Domestic Assistance under **10.202**.

DATES: Applications must be received by **5:00 p.m. Eastern Time on October 17, 2014**. Comments regarding this request for applications (RFA) are requested within 6 months from the issuance of this notice. Comments received after that date will be considered to the extent practicable.

Section 7101 of the Agricultural Act of 2014 (Public Law 113-79), better known as the 2014 Farm Bill, amended 7 U.S.C. 3103 to allow cooperating forestry schools eligible to receive funds under the McIntire-Stennis Cooperative Forestry Research Act of 1962 to submit a declaration of intent to not be considered a cooperating forestry school so that they may apply for designation as an Non-Land Grant College of Agriculture (NLGCA).

Before an institution can be considered for NLGCA designation, an Authorized Representative at the institution must submit a declaration of intent not to be considered a cooperating forestry school. This declaration must be submitted to the National Institute of Food and Agriculture (NIFA) by email at NLGCA.status@nifa.usda.gov.

If NIFA does not receive a declaration of intent from the institution by October 17, 2014, the institution will be included in the FY 2015 McIntire-Stennis allocations. Should a school opt out of being a cooperative forestry school, NIFA will contact recipient institution(s) in the same state with instructions to revise their budgets accordingly for FY 2015.

STAKEHOLDER INPUT: The NIFA seeks your comments about this RFA. We will consider the comments when we develop the next RFA for the program, if applicable, and we'll use them to meet the requirements of section 103(c)(2) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613(c)(2)). Submit written stakeholder comments by the deadline set forth in the DATES portion of this Notice to: Policy and Oversight Division, Office of Grants and Financial Management (OGFM), NIFA/USDA, Stop 2271, 1400 Independence Avenue, SW, Washington, DC 20250-2271; fax: (202) 401-1804; or e-mail: policy@nifa.usda.gov. In your comments, please state that you are responding to the McIntire-Stennis Cooperative Forestry Research Program RFA.

EXECUTIVE SUMMARY: NIFA requests applications for the McIntire-Stennis Cooperative Forestry Research Program (M-S) for Fiscal Year (FY) 2015. This grant is used to assist all states in carrying out a program of state forestry research at state forestry schools and colleges and

developing a trained pool of forest scientists capable of conducting needed forestry research under the following research topics: 1) Reforestation and management of land for the production of crops of timber and other related products of the forest; 2) Management of forest and related watershed lands to improve conditions of water flow and to protect resources against floods and erosion; 3) Management of forest and related rangeland for production of forage for domestic livestock and game and improvement of food and habitat for wildlife; 4) Management of forest lands for outdoor recreation; 5) Protection of forest land and resources against fire, insects, diseases, or other destructive agents; 6) Utilization of wood and other forest products; 7) Development of sound policies for the management of forest lands and the harvesting and marketing of forest products. Additionally, M-S funds should be allocated to the following high priority issues: 1) science of integration (ecosystem or landscape approaches including interdisciplinary multi-state projects); 2) forest ecosystem services; 3) human attitudes and behaviors; 4) conflict, uncertainty, and decision-making; 5) technological advancements (biotechnology, nanotechnology and geospatial technology), productivity, and forest applications; 6) agroforestry and 7) urban ecosystems.

This RFA is being released prior to the passage of an appropriations act for FY 2015. Enactment of continuing resolutions (CR) or an appropriations act may affect the availability or level of funding for this program. Subject to any 2015 Continuing Resolution, funds will be distributed to the institutions through grants on a quarterly basis and according to the amounts allocated in FY 2014. Adjustments will be made to the allocations for FY 2015 once the FY 2015 appropriations are finalized. The amount available for support of this program in FY 2014 was **\$31,979,290**.

The specific distributions are included in Appendix A of this RFA. In FY 2015, subject to the availability of funds and the applicant having met the previous year's reporting requirements, quarterly payments will be issued.

This notice identifies the objectives for M-S project/program, the eligibility criteria for projects/program and applicants, and the application forms and associated instructions needed to apply for a M-S grant.

PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

The McIntire-Stennis Cooperative Forestry Research Act, Pub. L. 87-788 (76 Stat.806, 16 U.S.C. 582a, et seq.), was signed into law on October 10, 1962. This law provides the basis for Federal funding in forestry research and graduate education programs at State-certified schools of forestry in the United States. Forestry Research is defined as: reforestation and management of land for the production of crops of timber and other related products of the forest; management of forest and related watershed land to improve conditions of water flow and to protect resources against floods and erosion; management of forest and related rangeland for production of forage for domestic livestock and game and improvement of food and habitat for wildlife; management of forest lands for outdoor recreation; protection of forest land and resources against fire, insects, disease, or other destructive agents; utilization of wood and other forest products; development of sound policies for the management of forest lands and marketing of forest products; and such other studies as may be necessary to obtain the fullest and most effective use of forest resources.

Section 7412 of the Food, Conservation, and Energy Act of 2008 amended section 2 of the McIntire-Stennis Cooperative Forestry Act (16 U.S.C. 582a-1) to include the 1890 Land-Grant Institutions and made this change effective October 1, 2008. USDA contacted the Governor of each state in which an eligible 1890 institution is located about the legislative changes and has received from the Governor's Designee the names of the M-S certified institutions and the proportionate amount of the state's M-S funding that is to be allocated to each.

Funding is provided to the States through a formula-based allocation process which depends on several factors. First, a base amount (approximately \$25,000) is allocated to each State; however, this base amount is excluded from the formula. The balance of funding to each State is determined through a ranking process and dependent upon the following three factors:

1) forty percent is allocated based on the area of non-Federal commercial forest land; 2) forty percent is allocated based upon the volume of timber cut annually from stock; and 3) twenty percent is allocated based on the total expenditures for forestry research from non-Federal sources. Funds are then distributed to the eligible State-certified Institutions within the State as determined by the Governor's designee.

Under the Federal Funding Accountability and Transparency Act (FFATA), the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet Data Universal Numbering (DUNS) numbers, legal name of institution, legal address, and congressional district). OMB makes this information available at <http://www.usaspending.gov>.

Please note that the submission of this application package does not change the following:

- Delegated authorities of the Administrative-Technical Representative (A-TR);
- How funds are managed at your institution; and
- Indirect costs and tuition remission are unallowable costs.

www.nifa.usda.gov/business/awards/formula/mcintire_stennis.html.

B. Purpose and Priorities

The purpose of this funding is to increase forestry research in the production, utilization, and protection of forestland; to train future forestry scientists; and to involve other disciplines in forestry research. The eligible forestry research topics as defined by the McIntire-Stennis legislation are: 1) reforestation and management of land for the production of crops of timber and other related products of the forest; 2) management of forest and related watershed lands to improve conditions of water flow and to protect resources against floods and erosion; 3) management of forest and related rangeland for production of forage for domestic livestock and game and improvement of food and habitat for wildlife; 4) management of forest lands for outdoor recreation; 5) protection of forest land and resources against fire, insects, diseases, or other destructive agents; 6) utilization of wood and other forest products; 7) development of sound policies for the management of forest lands and the harvesting and marketing of forest products; and such other studies as may be necessary to obtain the fullest and most effective use of forest resources.

In addition to the eligible forestry research topics described above, FY 2015 funding should also address the high priority issues described in the current M-S Strategic Plan: “Sustaining Healthy and Productive Forests: An Investment in America’s Competitive Position in the Global Marketplace”: 1) science of integration; 2) forest ecosystem services; 3) human attitudes and behaviors; 4) conflict, uncertainty, and decision-making; 5) technological advancements, productivity, and forest applications; 6) agroforestry and 7) urban ecosystems and NIFA’s societal challenge on Changing Climate. The M-S Strategic Plan can be accessed as follows: www.naufrp.org/pdf/M-S%20Plan.pdf.

PART II—AWARD INFORMATION

A. Available Funding

Subject to any 2015 Continuing Resolution, funds will be distributed to the institutions on a quarterly basis and according to the amounts allocated in FY 2014. Adjustments will be made to the allocations for FY 2015 once the FY 2015 appropriations are finalized. The amount available for support of this program in FY 2014 was **\$31,979,290**.

Awards issued as a result of this RFA will have designated the Automated Standard Applications for Payment System (ASAP), operated by the Department of Treasury's Financial Management Service, as the payment system for funds. For more information see www.nifa.usda.gov/business/method_of_payment.html.

B. Type of Application

In FY 2015, submit applications to the M-S Program as a “new” application.

C. Responsible and Ethical Conduct of Research

The responsible and ethical conduct of research (RCR) is critical for excellence, as well as public trust, in science and engineering. Consequently, we consider education in RCR essential to the preparation of future scientists. In accordance with sections 2, 3, and 8 of 7 CFR Part 3022, institutions that conduct USDA-funded extramural research must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct, and maintain and effectively communicate and train their staff regarding policies and procedures. In the event an application to NIFA results in an award, the Authorized Representative (AR) assures, through acceptance of the award that the institution will comply with the above requirements. Award recipients shall, upon request, make available to NIFA the policies, procedures, and documentation to support the conduct of the training.

Note that the training referred to herein shall be either on-campus or off-campus training. The general content of the ethics training will, at a minimum, emphasize three key areas of research ethics: authorship and plagiarism, data and research integration, and reporting misconduct. Each institution will be responsible for developing its own training system, as schools will need flexibility to develop training tailored to their specific student needs. Grantees should consider the Collaborative Institutional Training Initiative (CITI) program for RCR (<https://www.citiprogram.org/rcrpage.asp>). Typically this RCR education addresses the topics of: Data Acquisition and Management - collection, accuracy, security, access; Authorship and Publication; Peer Review; Mentor/Trainee Responsibilities; Collaboration; Conflict of Interest; Research Misconduct; Human Subject Research; and Use of Animals in Research.

PART III—ELIGIBILITY INFORMATION

PART IV—APPLICATION AND SUBMISSION INFORMATION

A. Electronic Application Package

Only electronic applications may be submitted via Grants.gov to NIFA in response to this RFA. We urge you to submit early to the Grants.gov system. For an overview of the Grants.gov application process see www.grants.gov/web/grants/applicants/grant-application-process.html.

New Users of Grants.gov

Prior to preparing an application, we recommend that the Project Director/Principal Investigator (PD/PI) first contact an Authorized Representative (AR, also referred to as Authorized Organizational Representative or AOR)¹ (see B.,1.,d. of this Part to determine if the organization is prepared to submit electronic applications through Grants.gov. If not (e.g., the institution/organization is new to the electronic grant application process through Grants.gov), then you must complete the one-time registration process **PRIOR** to submitting an application. It can take as long as 2 weeks to complete the registration process so it is critical to begin as soon as possible. In such situations, the AR should go to **“Register” in the top right corner of the Grants.gov web page (or go to www.grants.gov/web/grants/register.html) for information on registering the institution/organization with Grants.gov.** Item 2. below mentions the “NIFA Grants.gov Application Guide.” Part II., 1. of the NIFA Grants.gov Application Guide contains additional explanatory language regarding the registration process.

Steps to Obtain Application Package Materials

Administrative Guidelines

Guidelines for the administration of this program are published as the Administrative Manual for McIntire-Stennis Cooperative Forestry Program (March 2000 version), which may be accessed at www.nifa.usda.gov/business/awards/formula/mcintire_stennis.html#regulations.

Please note that any instructions in this RFA supersede policies and procedures identified in this manual.

Requirement for Central Contractor Registration (CCR)

Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration, and more frequently if required by changes in your information or another award term.

In July 2012, the System for Award Management (SAM), a new system that combines eight federal procurement systems, including the CCR, and the Catalog of Federal Domestic Assistance (CFDA) into one new system, was implemented. The CCR activities are now

being conducted through SAM (the CCR website will redirect users to SAM). Those organizations that need to register are to now visit <https://www.sam.gov/sam/>. Those organizations that already have a CCR registration are to visit the SAM website and should note the following:

- You'll create a new SAM User ID and Password.
- Your CCR permissions will be verified via your email account.
- Your CCR registration information (Entity Information) will be waiting for you in SAM.

Requirement for Data Universal Numbering System (DUNS) Numbers

If you are authorized to make subawards under this award, you:

1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.
2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

Definitions - For purposes of this award term:

5. *Central Contractor Registration (CCR)* means the Federal repository into which an entity must provide information required for the conduct of a business as a recipient. The CCR activities are now being conducted through SAM (see above).
6. *Data Universal Numbering System (DUNS) number* means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DNS number may be obtained from D&B by telephone (currently 866-705-5711) or the Internet (currently at <http://fedgov.dnb.com/webform>).
7. *Entity*, as it is used in this award term, means all of the following, as defined at 2 CFR part 25, subpart C:
 - a. A Governmental organization, which is a State, local government, or Indian Tribe;
 - b. A foreign public entity;
 - c. A domestic or foreign nonprofit organization;
 - d. A domestic or foreign for-profit organization; and
 - e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.
8. *Subaward*:
 - a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.
 - b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec .210 of the attachment to OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations").

Federal Agency Identification Number (FAIN)

A FAIN is a unique number federal agencies assign to federal financial assistance awards. NIFA assigns a FAIN to each award and includes it in block 8. of the award document (NIFA-2009). Awardees must document the assigned FAIN on each subaward under the Federal award.

Responsible and Ethical Conduct of Research

Please refer to Part II, C. for more information.

Research Misconduct

All research awards issued by NIFA are subject to 7 CFR 3022, “USDA Research Misconduct Regulations for Extramural Research,” (75 FR 49357); USDA’s implementation of the Federal Policy on Research Misconduct published at 65 FR 76260. In accordance with §3022.2, §3022.3 and §3022.8, institutions that conduct extramural research funded by USDA must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct, and are to maintain and effectively communicate, including training, to their staff regarding policies and procedures relating to research misconduct. Grant recipients shall, upon request, make available to NIFA the policies and procedures as well as documentation to support the conduct of the training.

D. Expected Program Outputs and Reporting Requirements

1. Financial Reporting

Financial reporting via the SF-425, Federal Financial Report for FY 2015 is due to the Capacity Grants Branch of OGFM on December 31, 2015 for the period October 1, 2014, through September 30, 2015, and annually thereafter until the award is closed out. McIntire-Stennis funds are expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one year after the end of the year for which they were appropriated. No prior approval is required to carry over funds for one additional year; however, no additional carryover requests may be considered or approved, as no legislative authority to do so is provided.

2. REEport Reporting

Institutions should submit a project proposal through the REEport systems. The “Essentials of a McIntire-Stennis Proposal” guideline document can assist you in developing the format of your proposal. The guideline can be found at www.nifa.usda.gov/business/awards/formula/mcintire_stennis.html under the Regulations, Guidelines and Policies section.

The following is a description of project data reporting requirements through the REEport system (located at <http://portal.nifa.usda.gov>) as well as the SF-425 reporting requirements:

Institutions must submit a REEport Project Initiation which includes the Project Description; Project Classification; Assurance Form; and Project Proposal through the REEport System prior to the initiation of each capacity-funded project. The project must undergo a review process and be approved before it is incorporated into the Program of Research.

Each institution shall submit a REEport Progress Report annually for each eligible project. All Progress Reports from institutions are based on the federal fiscal year and shall be submitted by March 1, 2015 for the preceding fiscal year.

A Final Report shall be submitted to NIFA through REEport for each completed or terminated project. Such reports shall be submitted at the same time as are progress reports on active projects and should include a summary of accomplishments for the entire life of the project.

A Financial Report shall be submitted to NIFA through REEport annually for all eligible projects from the preceding fiscal year. A Financial Report is also required for expenditures on all State projects that are to be included in the non-Federal funds and matching funds computation. Reports shall be made on the federal fiscal year basis.

Financial reporting via the SF-425, Federal Financial Report for FY 2015 is due to the Capacity Grants Branch, Awards Management Division, OGF, on December 31, 2015, for the period October 1, 2014, through September 30, 2015, and annually thereafter until the award is closed out.

Additional details of annual, final technical and financial reporting requirements are included on the NIFA web site at www.nifa.usda.gov/business/reporting/form_report.html. Instructions for using the REEport system are included on the NIFA web site at www.nifa.usda.gov/business/reeport_imp.html.
