How ASAP Works

Introductory Paragraph – This diagram illustrates how the ASAP application works:

Step 1: The Federal Agency enrolls with the U.S. Department of Treasury to use the ASAP application as its grants payment system.

Step 2: The Federal Agency’s Recipient Organizations are enrolled in the ASAP application.

Step 3: The Federal Agency builds the ASAP accounts for the individual grants.

Step 4: The Federal Agency funds the individual ASAP accounts.

Step 5: The Federal Agency certifies the funding for each individual ASAP account.

Step 6: The Recipient Organization makes a payment request via the ASAP application – either ACH or Fedwire.

Step 7: The payment transaction is processed with funds being deposited into the Recipient Organization bank account.
