

WebNEERS Scavenger Hunt

- 1) How many participants are new since October 1 (or the date of the reporting period on the report in front of you)? _____
- 2) What percentage of adult participants reached are living on household incomes in the 101- 125% poverty range? _____
- 3) What is the percent of adult participants to have graduated? _____
- 4) What is the mean number of lessons adult program graduates received? _____
- 5) What percentage of participants reported being involved in no service programs at entry? _____
- 6) What percentage of adult participants improved their vegetable consumption? _____
- 7) What is the mean number of cups of fruits and vegetables consumed at exit from the adult nutrition education series? _____ Is this higher or lower than the entry value?
- 8) What percent of adult participants improved their physical activity? _____
- 9) What percentage of adult participant had “good” healthy eating index scores on exit? _____
- 10) What is the total cost savings reported for graduated adult participants? _____
What is the average savings? _____
- 11) What percentage of adult participant improved in at least one nutrition practices? _____
- 12) What percentage of adult participants improved the frequency of planning meals ahead? _____
- 13) What percentage of adult participants had acceptable nutrition practices on entry? _____
On Exit? _____

14) What percentage of adult participants had acceptable practices, reported on the category “all 3” in the survey clusters at exit? _____

15) How many youth were reached?

_____ groups _____ females _____ males

16) Choose a grade range: What percentage of the youth improved the frequency of eating vegetables? _____ (Question 16 & 17 do not need to be the same group)

17) Choose a grade range: What percentage of the youth improved within the cluster of question, on at least one physical activity measure? _____

18) Does the Staff Status Report reflect the caseload (number of enrollees) and activity you would expect to see in your staff?

Answer Key

#	Data Point	Found in Report/Section
1	New participants enrolled this program year.	Adult Summary/ Section 1b
2	Participants in 101-125% poverty	Adult Summary/Section 5
3	% adult graduates	Adult Summary/Section 10
4	Mean # lessons for graduates	Adult Summary/Section 14
5	Participants not enrolled in food assistance program at entry	Adult Summary/Section 20
6	% adults improved vegetable intake	Adult Diet Summary/Section IA, 4
7	Mean # cups of fruits & veg. consumed at exit	Adult Diet Summary/Section IB, 1
8	% adult participants who improved physical activity	Adult Diet Summary Report/Section IF
9	% adult graduates w/”good” healthy eating index scores on exit	Adult Diet Summary Report/Section IVB
10	Total and average cost savings for adult graduates	Adult Diet Summary Report/Section IE
11	% adults improving at least one nutrition practice	Adult Checklist Summary Report/Section IV
12	% adults improved meal planning	Adult Checklist Summary Report/Section II or III
13	% adults on entry and exit who had acceptable nutrition practices	Adult Checklist Summary Report/Section V
14	% adults w/acceptable practices on all 3 survey constructs at exit	Adult Checklist Summary Report/Section V
15	# youth groups reached. # male and female	Youth Summary Report/Section 1(#groups) Youth Summary Report/Section 2a (gender)
16	% youth that increased frequency of vegetables	Youth Checklist Report/Section II (section letter depends on grade range)
17	% youth improved physical activity	Youth Checklist Report/Section III or IV (section letter depends on grade range)
18	Staff caseload	Staff Status Report
