REQUEST FOR APPLICATION

Renewable Resource Extension Act
National Focus Fund Projects

FUNDING YEAR: Fiscal Year 2022
APPLICATION DEADLINE: March 21, 2022
ANTICIPATED FUNDING: $300,000
FUNDING OPPORTUNITY NUMBER: USDA-NIFA-OP-008703
ASSISTANCE LISTING NUMBER: 10.515
LETTER OF INTENT DEADLINE: Not Required
INITIAL ANNOUNCEMENT
National Institute of Food and Agriculture
United States Department of Agriculture

Assistance Listing: The Renewable Resource Extension Act – National Focus Fund Projects (RREA-NFF) is listed in the Assistance Listings under number 10.515.

Advancing Diversity, Equity, Inclusion, and Accessibility. NIFA recognizes research, education, and extension efforts will have the greatest impacts when equity is grounded in the programs. NIFA is committed to enhancing diversity, equity, inclusion, and accessibility of programs and encourages individuals from underserved communities to apply to funding opportunities as lead, co-lead, or subaward recipient(s), and to engage as leaders in the peer panel review process to support the development of strong networks and collaborations. NIFA encourages applications that engage diverse communities and have broad impacts through research, education, extension, and integrated activities to address current and future challenges.

Stakeholder Input. The National Institute of Food and Agriculture (NIFA) seeks comments on all request for applications (RFAs) so it can deliver programs efficiently, effectively, with integrity, and with a focus on customer service. NIFA considers comments to the extent possible when developing RFAs and uses these comments to help meet the requirements of the Agricultural Research, Extension, and Education Reform Act of 1998, Section 103(c)(2), Pub. L. 105–185, title I, §103, June 23, 1998, 112 Stat. 527 (7 U.S.C. 7613(c)(2)). Applicants may submit written comments to Policy@usda.gov (email is for comments only). Please use the following subject line: Response to the Renewable Resource Extension Act – National Focus Fund Projects (RREA-NFF) RFA.
EXECUTIVE SUMMARY

NIFA requests applications for the Renewable Resource Extension Act (RREA) – National Focus Fund Projects (NFF) for fiscal year (FY) 2022 to provide for expanded and comprehensive extension programs that focus on forest and rangeland renewable resources at the national or regional level. The anticipated amount available for grants in FY 2022 is approximately $300,000. Enactment and implementation of appropriations laws may affect the availability or level of funding for this program. This notice identifies the objectives for RREA-NFF projects, deadlines, funding information, eligibility criteria for projects and applicants, and application forms and associated instructions.

PART I. FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority
Section 5A of the Renewable Resources Extension Act (RREA) of 1978 (Pub. L. 95–306, §8, June 30, 1978, 92 Stat. 352, codified at 16 U.S.C. 1674a) provides for an expanded and comprehensive extension program focused on forest and rangeland renewable resources. For FY 2022, the available amount for NFF grants is approximately $300,000. RREA-NFF funds are used to support projects at a national or regional scale which expand the reach of Extension forestry and rangeland programs through better program coordination and delivery, use of innovative technologies, and Extension program models that can be easily replicated by other institutions, states, and regions.

B. Purpose and Priorities
The RREA-NFF, Assistance Listing 10.515, program goal is to enhance the sustainability of U.S. forest and rangeland resources, and to enable landowners and managers to achieve their desired goals and objectives by making public research available to them. Forest and rangeland resources provide multiple benefits to people including wildlife habitat, water supply, open space, recreation, and cultural resources. Many of these lands are privately owned and managed for forest products and livestock production. Forest and rangeland are susceptible to less sustainable land use conversion and climate change. RREA-NFF projects must maximize the capacity, reach, and impact of the Cooperative Extension System – Extension Forestry and Rangeland Programs to ensure appropriate management and conservation of natural resources and to ensure resilience against climate change.

Handling of baseline data and data collection will be addressed per approved project evaluation or performance measures/outcomes.

The RREA-NFF will support projects that significantly advance the following USDA priority areas:
1. Human diversity, equity, inclusion, and accessibility;
2. Climate-Smart Agriculture and Forestry (CSAF) practices that support adaptation to ecological perturbation and mitigate climate change; and
3. Rural economic development and post-pandemic economic revitalization.

The FY 2022 RREA-NFF focus areas support input from stakeholders and the RREA Strategic Plan FY 2018-2022. The RREA-NFF is aligned with and mapped to the following:
1. USDA Strategic Goal 5: Strengthen the Stewardship of Private Lands Through Technology and Research.

Additional requirements on expected performance goals, indicators and targets may be required as a condition of award.

C. Program Area Priorities
NIFA is soliciting applications under the following priority areas:
1. Regional/National Projects: The Nexus of Critical Forest and Rangeland Resources Issues, Innovative Approaches to Program Delivery, and Current Knowledge about Non-Formal Adult Education;
2. **Climate-Smart Agriculture and Forestry**: Improve mitigation, adaptation, and resiliency of agricultural and forestry production systems to climate change; and

3. **Review and Update of the Current RREA Strategic Plan**.

Regional/National Projects must consider the following: 1) Broaden the scope of a locally produced Extension program by active participation (planning, delivering, evaluating) of Extension agents, specialists and stakeholders that stretch across a minimum of three states; 2) Directly support forest and rangeland owner issues and needs; 3) Either be new and unproven, but theoretically sound, or represent a significant change to an existing national or regional project; and 4) Address one or more of the forest and rangeland resource issues in the current RREA Strategic Plan, FY 2018-2022 or in the following USDA priority areas:

1. Human diversity, equity, inclusion, and accessibility;
2. Climate-Smart Agriculture and Forestry (CSAF) practices that support adaptation to ecological perturbation and mitigate climate change; and
3. Rural economic development and post-pandemic economic revitalization.

Traditional Ecological Knowledge is among the many acceptable topics for projects in pursuit of these priority areas.

Active participation is defined as direct involvement in planning, delivering, and/or evaluating the program, and related activities (e.g., website development, electronic or print publications, social media use, delivery of results to a broad audience at meetings such as the Association of Natural Resources Extension Professionals (ANREP), etc.) and must be described in a letter on university letterhead from each participating state (not included in the maximum 18-page narrative described in Part IV, Section B).

Of the nine issues in the Strategic Plan, emphasis should be placed on landowners’ engagement in sustaining productivity of forest and rangelands through development of Climate-Smart Forestry, agroforestry, forest and rangeland management, among others, to achieve ecosystem services, wildfire prevention and post-fire management issues and water/climate-related issues such as drought and excess soil moisture/flooding, and the management and control of invasive species in forest and rangelands.

Review and Update the RREA Strategic Plan – The current RREA Strategic Plan expires on September 30, 2022. Through a streamlined and efficient process that involves all RREA institutions and their stakeholders, the plan needs to be reviewed and re-issued as a guidance document and action plan for the RREA programs at eligible institutions. It should identify and describe the critical and emerging forest and rangeland issues faced by private forest and rangeland owners/managers and the specific actions that Extension Forest and Rangeland Programs will undertake to address them. The RREA Strategic Plan must be aligned with USDA priorities, including CSAF and others; a document needs to be produced in electronic formats. This Strategic Plan must state the RREA core values and include descriptions of at least nine cross-cutting issues and four overall goals, as well as measurement and reporting targets. New considerations of persistent issues that may be related to changing climatic conditions such as drought, fire, invasive species, and plant diseases should be included. In recent years, greater attention was placed on innovations in program delivery using methodologies and communication technologies that engage people more directly and that have greater possibilities for achieving positive behavioral change. Thus, it is timely to undergo a process for incorporating these new program delivery methods into the next RREA five-year strategic plan. Partnerships between 1862 and 1890 institutions are encouraged in this application.
PART II. AWARD INFORMATION

A. Available Funding
The anticipated amount available for RREA-NFF in FY2022 is approximately $300,000. Enactment and implementation of appropriations may affect the availability or level of funding for this program.

USDA is not committed to fund any particular application or to make a specific number of awards. The Automated Standard Application for Payments, operated by the Department of Treasury, Bureau of Fiscal Service, is the designated payment system for awards resulting from this RFA.

B. Application Restrictions
NIFA will evaluate applications using the criteria described in Part V of this RFA. An application for FY2022 is limited to the following applications types:
1. New application: New applications will be evaluated using the criteria described in Part V of this RFA and are subject to the due dates herein (see Appendix III for definition).
2. Resubmitted application: Resubmitted applications must include a response to the previous review and are subject to the same criteria and due dates herein. Resubmitted applicants must enter the NIFA-assigned proposal number of the previously submitted application in the Federal Field (Field 4) on the application form (see Appendix III for definition).

C. Ethical Conduct of Funded Projects
In accordance with sections 2, 3, and 8 of 2 CFR Part 422, institutions that conduct USDA-funded extramural research must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct, and maintain and effectively communicate and train their staff regarding policies and procedures. In the event an application to NIFA results in an award, the Authorized Representative (AR) assures, through acceptance of the award that the institution will comply with the above requirements. Award recipients must, upon request, make available to NIFA the policies, procedures, and documentation to support the conduct of the training. See Responsible and Ethical Conduct of Research for further information.
PART III. ELIGIBILITY INFORMATION

A. Eligibility Requirements
Applicants for the RREA-NFF must meet all the requirements discussed in this RFA. Applications may only be submitted by 1862 (7 CFR 3430.2, 7 U.S.C. 301 et seq; and 7 U.S.C. 7601(1)) and 1890 land-grant institutions (7 U.S.C. 7601(2) and 7 CFR 3430.2). Project Directors must have an Extension appointment. An Extension appointment is a formal appointment by an Extension Director/Administrator in the institution’s extension service. Failure to meet the eligibility criteria by the application deadline may result in exclusion from consideration or preclude NIFA from making an award. For those new to Federal financial assistance, NIFA’s Grants Overview provides highly recommended information about grants and other resources to help understand the Federal awards process.

Duplicate or Multiple Submissions – duplicate submissions or multiple applications are not allowed. NIFA will disqualify both applications if an applicant submits duplicate or multiple submissions.

B. Cost Sharing or Matching
No Match Required - The RREA-NFF has NO matching requirement. NIFA will not factor matching resources into the review process as an evaluation criterion.
PART IV. APPLICATION AND SUBMISSION

A. Method of Application
Applicants must apply to this RFA electronically; no other method or response is accepted. The electronic application for this RFA and additional resources are available on Grants.gov and Grants 101. Table 4 provides instructions on how to obtain an electronic application. Part II § 1 of the NIFA Grants.gov Application Guide (Application Guide) contains detailed information regarding the Grants.gov registration process.

Table 4. Steps to Obtain Application Materials

B. Content and Form of the Application
The Application Guide is part of the corresponding application package for this RFA. The RFA overrides the Application Guide if there is a discrepancy between the two documents. NIFA will accept subsequent submissions to an application until the application deadline. However, applicants that do not meet the application requirements, to include partial applications, risk being excluded from NIFA’s review. NIFA will assign a proposal number to all applications that meet the requirements of this RFA. Applicants must refer to the proposal number when corresponding with NIFA. Table 6 outlines other key instructions for applicants.

**SF 424 R&R Cover Sheet.** See [Part V § 2](#) and [Part V § 2.17](#) of the [Application Guide](#) for the required certifications and assurances.

**SF 424 R&R Project/Performance Site Location(s).** See [Part V § 3](#) of the [Application Guide](#).

**R&R Other Project Information Form.** See [Part V § 4](#) of the [Application Guide](#).

1. Field 7. Project Summary (PS)/Abstract. The PS must show how the project goals align with the project goals of the RREA-NFF. See [Part V § 4.7](#) of the [Application Guide](#) for instructions and suggested templates.
2. Field 8. Project Narrative (PN). The PN must not exceed twelve (12), 1.5 spaced pages of written text including all figures and tables (the font size for tables should be no smaller than 11 point, Times New Roman). The page limits outlined here ensure fair and equitable competition. Appendices to the PN are allowed if they are directly germane to the proposed project. Do not add appendices to circumvent the page limit. The PN must include the following:
   a. Title: Provide an appropriate title for the project.
   b. Subtitle; State the Priority Area (from [Part I, Section C](#)) that the proposal addresses.
   c. Introduction; The introduction should include a clear statement of the long-term goal(s) supporting objectives for the proposed project, and the nature of the issue that the project is intended to address. Additionally, the first sentence of the Introduction must specifically state the RREA cross-cutting issue(s) being addressed (refer to FY 2018-2022 RREA Strategic Plan).
   d. Justification, Rationale, and Significance; Concisely present the justification for why this project is important to forest and rangeland owners at a national or regional scale.
and how they will benefit. New and innovative ideas, program delivery approaches, or products should be clearly and explicitly described. Demonstrate the feasibility of the proposed project through preliminary data.

e. Relevant Literature Review; Provide a narrowly focused and concise review of recent, relevant literature that supports the need and importance of the project (not to exceed 4 pages).

f. Objectives; Include clear, concise, complete, and logically arranged objective statements.

g. Approach; This section must include:
   1. Who are the project stakeholders and how they will be involved in the project and its evaluation;
   2. An Extension logic model (in the form of a figure) for the proposed project and a narrative description of the inputs, outputs, participants, short- and medium-term outcomes, and projected/estimated impacts (long-term outcomes);
   3. A description of the proposed activities and the sequence in which the activities are to be performed;
   4. How, when, and where the activities will be provided;
   5. Expected outputs;
   6. Expected outcomes;
   7. Expected impacts;
   8. A timeline for the project; and
   9. A detailed evaluation plan for the project:
      i. For participants, activities, outputs, and outcomes – what, how, and when they will be measured;
      ii. How the evaluation results will be reported, where, and to whom.

h. Project Sustainability and Replication (if applicable): Describe plans for assisting other institutions/states/regions in replicating the project. Describe any plans for sustaining the project beyond the project period.

R&R Senior/Key Person Profile (Expanded). See Part V § 5 of the Application Guide for profile requirements, details about the biographical sketch, and suggested support templates.

R&R Personal Data. This information is voluntary and is not a precondition of award (see Part V § 6 of the Application Guide).

R&R Budget. See Part V § 7 of the Application Guide. The budget must support the outputs and outcomes described in the logic model and in the Approach section. Provide a narrative justification for each of the budget lines. Include travel to the Association of Natural Resources Extension Professionals (ANREP) Biennial Conference and/or other professional meeting(s) where you will present the project and its accomplishments. While budgets should account for this travel, virtual or hybrid meetings may be considered based on local and national pandemic conditions.
   1. Matching – Not required.
   2. Indirect costs (IDC) – Not permitted.
Supplemental Information Form. See Part VI § 1 of the Application Guide.

1. Field 2. Program to which the applicant is applying. Enter the program name Renewable Resource and the program code ME. Accurate entry is critical.

2. Field 8. Conflict of Interest List. See Part VI § 1.8 of the Application Guide.

Representations Regarding Felony Conviction and Tax Delinquent Status for Corporate Applicants. This is required for corporate applicants. See Part VI § 2 of the Application Guide for a description of the term, “corporation.”

C. Funding Restrictions
RREA is an Extension-only program therefore research cannot be conducted with RREA-NFF funds. Pursuant to Section 1473 of the National Agriculture Research, Extension, and Teaching Policy Act of 1977, as amended, 7 USC 3319, indirect costs and tuition remission are not allowable costs under RREA-NFF projects, and no funds will be approved for this purpose. Further, costs that are a part of an institution's indirect cost pool (e.g., administrative or clerical salaries) may not be reclassified as direct costs for the purpose of making them allowable.
PART V. APPLICATION REVIEW REQUIREMENTS

A. NIFA’s Evaluation Process
NIFA evaluates each application in a two-part process. First, we screen each application to ensure that it meets the administrative requirements set forth in this RFA. All administrative requirements must be met for the application to proceed to the next level of review. Second, a scientific peer-review process will be used to technically evaluate applications that have met the administrative requirements using a review panel (see NIFA Peer Review Process).

Scientific Peer Review Process:
NIFA selects reviewers for the review panel based upon their training and experience in relevant scientific, extension, or education fields, taking into account the following factors:

1. the level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities.
2. the need to include experts from various areas of specialization within relevant scientific, education, or extension fields.
3. the need to include other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs.
4. the need to include experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, and private profit and non-profit organizations) and geographic locations.
5. the need to maintain a balanced composition with regard to minority and female representation and an equitable age distribution; and
6. the need to include reviewers who can judge the effective usefulness of each application to producers and the general public.

After each peer review panel has completed its deliberations, the responsible program staff of NIFA will recommend that your project is either approved for support from currently available funds or declined due to insufficient funds or unfavorable review.

NIFA reserves the right to negotiate with the PD/PI and/or the submitting organization or institution regarding project revisions (e.g., reductions in the scope of work, funding level, period, or method of support) prior to recommending any project for funding.

After the review process has been completed, NIFA sends copies of reviews, not including the identity of reviewers, and a summary (if applicable) of the review panel comments to the PD.

Conflicts of interest. NIFA takes extreme care to prevent any actual or perceived conflicts of interest that may influence the review or evaluation (see NIFA Peer Review Process for Competitive Grant Applications).
B. Evaluation Criteria
NIFA will use the following criteria to evaluate this RFA:

1. Project Justification
   a. The issue that the project will address is well-defined and described.

2. Project Merit
   a. The proposed objectives, outputs, outcomes, and impacts are clearly described, adequate, and appropriate;
   b. The project utilizes theory-based non-formal adult education principles;
   c. The project approaches and procedures are original, clearly described, and feasible;
   d. The project is innovative relative to focus, methodology, program delivery, audience and products; and
   e. The project outcomes and projected impacts are clearly stated, measurable, and achievable.

3. Project Relevance
   a. The proposal meets the requirements in the Project Narrative;
   b. Evidence that partners and stakeholders play an active role in setting project direction and are involved throughout the course of the project;
   c. Planning and implementing methods for evaluating success of project activities and documenting potential impact is in alignment with measurable short and midterm outcomes; and
   d. Demonstration of feasibility through preliminary and current relevant data.

4. Project Personnel, Adequacy of Facilities and Equipment, Project Timeline, and Evaluation Plan
   a. Roles of key personnel are clearly described;
   b. Project personnel have extensive and documented experience in developing, leading, managing and evaluating extension programs;
   c. Detailed, logical, and achievable timeline of project activities from project initiation through project completion and submission of final report is provided;
   d. Clear evidence of staff and budget resources to plan and conduct the project evaluation exists; and
   e. Evidence of institutional capacity, competence, and experience in the proposed area of work is provided.

C. Organizational Management Information
Applicants must submit specific management information relating to an applicant prior to an award and update the information as needed. Applicants may only have to update their information if they had previously provided the information under this or another NIFA program. NIFA provides the requisite forms during the pre-award process. Although an applicant may be eligible for award under this program, there are factors that may exclude an applicant from receiving federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual, or a determination that an applicant is not responsible).

D. Application Disposition
Applicants may withdraw at any time before NIFA makes a final funding decision. NIFA will retain all applications, including withdrawn applications and unfunded applications.
PART VI. AWARD ADMINISTRATION

A. General
Within the limit of funds authorized, the NIFA awarding official will make grants to responsible and eligible applicants whose applications are judged most meritorious under the procedures set forth in this RFA. The date specified by the NIFA awarding official as the effective date of the grant must be no later than September 30 of the federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. The project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by NIFA under this RFA may be used only for the purpose for which they are granted in accordance with the approved application and budget, regulations, terms and conditions of the award, applicable federal cost principles, USDA assistance regulations, and NIFA General Awards Administration Provisions, 7 CFR part 3430, subparts A through E.

Award Notice. The award document will provide pertinent instructions and information as described in 2 CFR 200.211 (see NIFA’s Terms and Conditions).

B. Administrative and National Policy Requirements
Several federal statutes and regulations apply to grant applications and the projects outlined in this RFA (some are listed here: Federal Regulations). Unless specifically noted by statue or award-specific requirements, NIFA Policy Guide applies to all NIFA awards.

C. Expected Program Outputs and Reporting Requirements
The output and reporting requirements are included in the award terms and conditions (see terms and conditions for information about NIFA award terms). If there are any program or award-specific award terms, they will be identified in the award.

Grantees are to use REEport, NIFA’s electronic, web-based inventory system to submit an initial project initiation which documents expected products and outcomes of the project. Additionally, an annual progress report documenting realized project outcomes must be submitted to the electronic system. The web-based system facilitates an electronic workflow between grantees and NIFA for project accomplishments to be easily searchable and allows for public access to information on Federally funded projects. The details of these reporting requirements, including those specific to the annual and final technical reports, are included in the award terms and conditions.
PART VII. OTHER INFORMATION

A. Use of Funds and Changes in Budget

Delegation of fiscal responsibility. Unless the terms and conditions of the award state otherwise, awardees may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of award funds.

Changes in Budget or Project Plans. In accordance with 2 CFR 200.308, awardees must request prior approval from NIFA for the following program or budget-related reasons (the awardee is subject to the terms and conditions identified in the award):

1. Change in the scope or the objective of the project or program without prior written approval (even if there is no associated budget revision requiring).
2. Change in a key person specified in the application or the federal award.
3. Disengagement from the project for more than three months, or a 25 percent reduction in time devoted to the project.
4. Inclusion of costs that require prior approval in accordance with 2 CFR 200 Subpart E (Cost Principles), or 45 CFR Part 75 Appendix IX, (Principles for Determining Costs Applicable to Research and Development under Awards and Contracts with Hospitals), or 48 CFR, unless waived by the federal awarding agency,
5. 48 CFR Part 31, Contract Cost Principles and Procedures;
6. Transfer of funds budgeted for participant support costs to other categories of expense (2 CFR 200.456 Participant support costs);
7. Sub-awarding, transferring or contracting out of any work under a federal award, including fixed amount sub-awards (see 2 CFR 200.333, Fixed Amount Sub-awards), unless described in the application and funded in the approved federal awards. This provision does not apply to the acquisition of supplies, material, equipment, or general support services.
8. Changes in the approved cost-sharing or matching provided by the non-federal entity; and
9. The need for additional federal funds to complete the project.

B. Confidential Aspects of Applications and Awards

When an application results in an award, it becomes a part of NIFA transaction records, which are available to the public. Information that the Secretary of Agriculture determines to be confidential, privileged, or proprietary in nature will be held in confidence to the extent permitted by law. Therefore, applicants should clearly mark any information within the application they wish to have considered as confidential, privileged, or proprietary. NIFA will retain a copy of an application that does not result in an award for three years. Such an application will be released only with the consent of the applicant or to the extent required by law. An applicant may withdraw at any time prior to the final action thereon.

C. Regulatory Information

This program is not subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the collection of information requirements contained in this notice have been approved under OMB Document No. 0524-0039.

APPENDIX III: DEFINITIONS

Refer to 7 CFR 3430 Competitive and Noncompetitive Non-formula Federal Assistance Programs – General Award Administrative Provisions for additional definitions.

Matching:
   The process through which a grant recipient match awarded USDA funds with cash and in-kind contributions on a dollar-for-dollar basis. The matching funds must derive from non-Federal sources.

New Application:
   An application not previously submitted to a program.

Rangeland:
   Land supporting indigenous vegetation that either is grazed or that has the potential to be grazed, managed as a natural ecosystem. Rangeland includes grasslands, savannas, grazable forestlands, shrub lands, pasturelands, many deserts, tundra, alpine communities, marshland, and meadows.

Resubmitted Application:
   A project application that was previously submitted to a program, but the application was not funded.
